

In July of 2003, the Old Stagecoach Stop Foundation purchased the lot behind the Old Stagecoach Stop. Both lots are now under one ownership, as they had been for most of their history. On the lot is a small brick building, which the Foundation calls the McNeese Building, after A. S. McNeese, who built it. It was a residence from 1943 until around 1980. The last occupants were Mary Underwood Crane and daughter Bernadine.

While cleaning out the building, an issue of "The Tiger Rag" of December, 1950 was found. It was the high school newspaper. Bernadine Crane was in the class of 1952. The school paper was reproduced on 8 1/2 by 11 inch mimeograph paper. The master copy was a "purple ditto", familiar to teachers of that period. It has two staples on the left side fastening the eight pages together. We have reproduced the entire contents of the issue on the following three pages. We have corrected obvious typographical errors and strikeovers, common in ditto masters in typewriter days. Otherwise, it appears as written.

This lucky find gives a nice peek into the lives of Waynesville school students of 54 years ago. If any reader has a similar paper from an area school a half century or so ago, we would be happy to feature it in a future *Gazette*.

Bernadine Crane's Class of '52 graduated Sunday, May 11, 1952. Its colors were red and white and the class flower was the carnation. Class officers were: Douglas E. Long, Jr. (President); Bernadine Crane (Vice President); Jeannette Gish (Secretary); and Karalene Prewitt (Treasurer). The Salutatorian was Karalene Prewitt and the Valedictorian was Lila Mae Phillips. The graduation address was delivered by Brigadier General Branner P. Purdue. Officiating at the awarding of diplomas was the President of the Board of Education, Douglas E. Long, Sr.

HELP NEEDED

Do you keep your bottles picked up? This sounds like a silly question but it is one of our most serious problems and its getting to be more than that.

Just take a stroll across the school grounds. On every hand there are bottles, dirty, broken, perhaps just thrown there by some careless student.

There are several reasons why these bottles should be picked up, and the responsibility falls on every one not just the senior class. Of course everyone knows that broken bottles are dangerous, and that whether it's just that much money gone. A few bottles doesn't matter, but there is the matter of a several bottles on the stairs leading to the science room. The stairs are usually dark and it would be easy for someone to step on a bottle, fall down the stairs, and injure himself in a bad way.

If the bottles are not kept in the place and we continue to have this difficulty, we may lose the coke machine altogether so lets all co-operate, please.

Shorty.

PARTY FOR DORIS WILSON

As Miss Wilson returned from her work Saturday evening she was pleasantly surprised by a group of her friends who had gathered to help her celebrate her 18th birthday. Just as she opened the door to enter her home the group began singing "Happy Birthday." After the lovely gifts were opened and everyone had viewed them the first part of the evening was spent in singing with Miss Wilson at the piano. Then the lights were turned off and a beautiful golden chiffon cake surrounded by glowing candles was brought in for Miss Wilson to make the traditional wish. She was successful in blowing the flames all out in the first trial; therefore her "secret" wish will come true. The cake was cut and served with ice cream and punch. The remainder of the evening was spent in playing games. Those present and sending gifts were: Misses Helen and Wilma Rose, Audrey Long, Pauline Roberson, Irene Anderson, Vera Brown, Mrs. Elva Brown, maternal grandmother of the honoree, and her parents Mr. and Mrs. Ralph Wilson, parents of the honoree.
